

Iberville Parish Library presents

Easy Bird Seed Ornaments

Supplies

- thin cardboard such as a cereal box, provided
- pencil
- template or cookie cutters
- scissors
- peanut butter or comparable, bird-safe spread
- bird seed, provided
- small nail or tapestry needle
- floral wire, provided

Instructions

1. Flatten your cardboard and use a template or cookie cutters to draw any shape you like with a pencil. In the center, draw a circle about 1 1/2-inches in diameter. Cut out the shape and the inside circle. TIP: Pierce the center with the nail or needle to help cut out the center.
2. Use the nail or needle to poke a hole in the top of the shape. Thread a piece of floral wire through the hole and twist to close.
3. Pour some birdseed in a tray or dish. Spread a thin layer of peanut butter on the shape. Hold the shape over the tray and cover with bird seed. Turn over to remove excess. Place the ornament on a baking tray lined with wax paper to set. If desired, repeat on the other side (optional).
4. Hang outside and wait for the birds!
